## Training Program Information & Pricing

### Basic Training

(Offered in group training options, see Course Pricing.)

#### Basic Obedience:

The Basic obedience training course provides teams with a core foundation of communication and obedience.

The basic course teaches teams commands such as:

- His/her name
- Sit
- Stay / Wait
- Come
- Leave-It
- Drop-It
- Heel

These tasks will set teams up for success in more advanced courses such as loose leash walking. This course will be the building block to the Advanced Obedience training course and the AKC Canine Good Citizen training.

#### Advanced Obedience:

The advanced obedience training is designed to test the skills learned from taking the basic obedience course. It will provide crucial skills to prepare the handler and dog for the Canine Good Citizen course and testing.

This course will teach your dog things such as:

- Heel from a distance & Close heel
- Place & Emergency stop
- Stay with leash pull.
- Stay with distractions and distance.
- Sit/down in motion or while heeling.
- Out of sight stay and wait.
- Give your dog to a neutral stranger.

These important skills will all be required to successfully pass the CGC (Canine Good Citizen Test).

## Pre-CGC (Canine Good Citizen):

Pre CGC is designed to integrate advanced obedience skills and introduce the CGC protocol. This class is conducted in multiple locations and environments. We will be interacting with the public and honing our obedience and shaping what is needed to become a well-rounded service dog. We will begin to introduce things like escalators, crowd navigation, finding exits, and much more.

## CGC (Canine Good Citizen):

The CGC will provide your dog with the highest level of obedience training. The course is designed to teach your dog advanced and master level skills. This is going to include a very specific curriculum to include training in some of the following areas:

- Ignoring distractions outside and around strangers
- staying for a long duration in place
- accepting a stranger
- walking through crowds and tight spaces
- walking through doorways
- urban training foundations
- public access

This is going to prepare the dog and handler for the AKC CGC test, to be evaluated by an official AKC evaluator. The dog must successfully pass the CGC to move onto the CGC Urban training.

## Advanced Task Training

(Offered in individual training options, see Course Pricing.)

### Urban Canine Good Citizen (CGC-U):

AKC Urban CGC is a title in the Canine Good Citizen family. The AKC Urban CGC requires that your dog demonstrate perfect CGC skills and more. This course is designed to further acclimate your dog to urban settings that may include traffic, crowds, noises, smells, textures, and other distractions. Like the CGC, the AKC Urban CGC will require your dog to pass a 10-step test of their skills. The dog must successfully pass this course to earn the official title of being an AKC Urban CGC dog.

### Advanced Canine Good Citizen/Community Canine (CGC-A):

The AKC Community Canine program is all about ensuring you have a well-behaved dog while you're out and about in the community. Where CGC happens in a simulated environment, the 10-step AKC Community Canine test is conducted in real life situations—like walking on a busy sidewalk or through a local park—giving you and your dog the confidence to enjoy every day to the fullest, no matter what comes your way.

### What is the CGC?

The Canine Good Citizen (CGC) program was established by the American Kennel Club. The goal of this program is to teach your dog to be the best that they can be. These courses lay the foundation for more intricate training courses such as trick and agility. This course is a foundation and pre-requisite to further therapy dog and assistance dog certifications. Your dog will be tested and evaluated in 10 key areas.

[info@abovethecloudssiberianservice.dog](mailto:info@abovethecloudssiberianservice.dog)

Above the Clouds Siberian Service Dogs, LLC requires each team to pass both the CGC and CGC Urban to successfully meet the requirements of becoming a successful service dog or assistance dog. Since the CGC Urban needs to be evaluated and tested out in the real world and in a busy public setting the CGC Urban is trained and tested on an individual basis.
